The table above illustrates the progress made by PP pupils in the 2017-18 cohort from KS1 to the end of Year 8. Data at KS1 and Year 4 is teacher assessment, along with Writing at the end of Year 8. Year 6 is measured by the end of KS national tests and Year 8 measures are based on the outcomes of GL Assessments. GL Assessments are external, nationally standardised tests that allow a school to compare pupil performance against a national measure.

The results indicate that PP pupils performed consistently well in writing, especially during KS3 with the gap being closed significantly. Although progress in reading was made during KS3 the gap has widened a little despite an increase in attainment of PP pupils, and the strategies used should form the basis of future interventions. Achievement and progress in mathematics remains a whole school priority. Enrichment opportunities, along with the mentoring offered by our Pupil Champion, has undoubtedly helped to raise self-esteem and aspirations of the PP pupils with many of them engaging in a variety of activities that they would otherwise have not experienced such as trips, residential, sports clubs and music tuition.
